Objective

Full Stack Java Developer with more than **3** years of experience developing Web applications using **Spring Boot** and **Angular** along with exposure to Cloud Services **AWS**.

Experience

Coforge |Software Engineer

Dec 2021 |Oct 2024

- Developed interactive web applications employing **Angular** and **Spring Boot**, facilitating a 20% increase in client engagement.
- Collaborated for migration of legacy system to **Springboot 3** and **Angular 16** from Struct 2 based application, enhancing system performance and reducing server costs
- Implemented continuous integration and deployment practices using **Jenkins**, leading to reduction in deployment times and fewer rollbacks.
- Designed and implemented containerized applications using **Docker**, leveraging **Kubernetes** for orchestration and scaling to manage complex deployments across multiple environments

StaySafe Solution | Internship

Jul 2021 | Dec 2021

- Created custom, self-contained reusable and testable **Angular 10** modules, controller, directives and services to implement key functionalities for customer.
- Took part in setting up route configuration using angular router for various views and sub views.
- Used **Microservice** architecture with **Springboot** based service interacting through a combination of **REST** to build test and deploy **Microservices**.
- Used **SVN** as version control tools and **Maven** as build tool.

Projects

Stationary Ecommerce Website | Springboot 3, Angular 18

2024

- Developed the **UI** components, directives, services, controller, modules, routes using **Angular** with **Tailwind CSS** and implement key functionality like shopping cart and admin module to add products.
- Created **Springboot API** implementing **Postgres** database and **JWT** authentication in Backend.

Beer Rest Api | Springboot 3

2024

- Successfully designed and implemented a Beer REST API that enables comprehensive beer catalog management, including features like inventory control, user reviews, and detailed beer data retrieval using **MySQL** for Database.

Portfolio App | Angular 18

2024

- Successfully designed and developed a modern Portfolio App showcasing professional projects, skills, and achievements, with a focus on responsive design, intuitive navigation, and performance optimization.

Education

Guru Gobind Singh Indraprastha University | B. Tech

2021

Major: Electronic and Communication Engineering

Board of Technical Education | Diploma

2016

Minor: Information Technology

Skills & abilities

- **Technologies:** Java, HTML, CSS, JavaScript, Typescript, Spring Boot, Hibernate, Microservices, Kafka, Mockito, JUnit, AWS, Maven, Angular, Redis, Rest template, JWT, OAuth2, Bootstrap, Material UI, tailwind
- **Databases:** MySQL, SQL Server, Postgres, MongoDB
- **Tools:** Git, Jira, Postman, Docker, IntelliJ, Kubernetes, Jira, SVN, Jenkins
- **Methodologies:** Agile Scrum
