## WORK EXPERIENCE

### Coforge

#### Software Engineer

Dec 2021 - Oct 2024

- Developed robust backend applications using **Core Java, J2EE technologies**, and frameworks like **Spring Boot, Hibernate**, and **Spring MVC**.
- Designed and implemented **Microservices** architecture to build scalable, distributed systems, ensuring seamless integration through **RESTful** and **SOAP web services**.
- Worked with **HTML, CSS, Typescript, JavaScript, Angular** for integrating frontend and backend services.
- Designed database schemas and optimized queries for **relational MySQL, Oracle SQL** databases, ensuring data integrity and high performance.
- Utilized **JPA** and **Hibernate ORM** for efficient database interaction and data persistence.
- Developed in **IntelliJ IDEA** and worked on **Postman** to improve productivity and streamline the development process.
- Leveraged **build tools** like **Maven** for project compilation, dependency management, and packaging.
- Managed version control effectively with **Git** and collaborated on team repositories using **GitHub**.
- Worked on **CI/CD pipelines** with **Jenkins** ensuring automated testing, integration, and deployment.
- Deployed and containerized applications using **Docker** and orchestrated services with **Kubernetes** for scalability and efficient resource management.
- Integrated and documented RESTful APIs using **Swagger** for seamless testing and collaboration.
- Deployed applications on **AWS Cloud** for high availability and performance, leveraging services like EC2, S3, and RDS.

### StaySafe Solution

#### Intern

Jun 2021 - Nov 2021

- Assisted in the development of **backend services** using **Java** and **Spring Boot**, contributing to the creation of scalable and maintainable microservices.
- Gained hands-on experience in troubleshooting and resolving bugs by analyzing code, performing root cause analysis, and testing fixes in a **Jira-driven Agile** environment.

---

## SKILLS

**Technologies:** Java, Spring Boot, Hibernate (JPA), Microservices, Apache Kafka, Mockito, Junit, AWS (Amazon Web Services), Angular, Swagger, Struts, Spring Security, HTML, CSS, JavaScript, TypeScript, JSP, CI/CD Pipeline, JWT, Spring MVC

**Databases:** MySQL, SQL Server, Oracle SQL

**Tools:** Maven, Git, Jira, Postman, Docker, IntelliJ IDEA, Jenkins

---

## EDUCATION

### Guru Gobind Singh Indraprastha University

- Bachelor of Technology  
Major in Electronics and Communications

2017 – 2021

**CGPA 7.6**

---

## PERSONAL PROJECTS

### E-commerce Platform (Spring Boot & Angular)

- Developed a full-stack e-commerce platform using Spring Boot for the backend and Angular for the frontend, providing users with a seamless online shopping experience.

### Portfolio Website ( Angular)

- Developed a personal **portfolio website** to showcase professional skills, projects with **Angular**.
