SHUBHAM CHOUBEY

Bangalore, IN | www.choubeyshubham.in

9990604348 | shubhamchoubeymv@live.com

Detail-oriented Software Engineer with **4 years of hands-on experience** designing, developing, and deploying enterprise-grade applications using **Java, Spring Boot, Microservices, Kafka, SQL, Docker, and REST APIs**. Skilled in backend systems, CI/CD automation, and cross-functional collaboration with on-site client teams. Passionate about building scalable, secure, and efficient software solutions.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

StaySafeIt Solutions | New Delhi IN

FEB 2025 – PRESENT

Developed and maintained scalable backend services using **Java** and **Spring Boot** within a microservices ecosystem, while engineering utilities automate client notifications and optimize backend workflows for improved throughput. Collaborated closely with **clients** and onsite development teams during requirement gathering and sprint planning, participating in architectural discussions, code refactoring, debugging, and performance tuning. Designed efficient database schemas and wrote optimized SQL queries for **MySQL** and **Oracle**, and implemented robust persistence strategies using **JPA/Hibernate**. Regularly tested and validated **APIs** using **Postman** and IntelliJ IDEA to accelerate development cycles and ensure high-quality delivery.

SOFTWARE ENGINEER

Coforge | New Delhi IN

DEC 2021 – NOV 2024

Developed and enhanced enterprise-grade backend applications using **Java 8+ and Spring Boot** in a microservices architecture, delivering scalable solutions for client-facing systems. Implemented secure **RESTful APIs** using Spring Security and JWT and designed optimized relational database schemas with efficient SQL queries for high-volume transactional workflows. Collaborated closely with onsite client teams during requirement analysis, sprint planning, and delivery cycles, contributing to architecture discussions, code refactoring, debugging, and performance tuning. Leveraged **JPA/Hibernate** for robust persistence, utilized **Docker** for containerized deployments, and ensured API quality through structured testing and validation. Supported CI/CD delivery practices and frontend integration using Angular, while applying a strong understanding of OOP principles and software engineering best practices.

TECHNICAL SKILLS

Languages: Java (Core, J2EE), TypeScript, SQL Security, Spring Data JPA
Frameworks: Spring Boot, Spring MVC, Spring
Architectures: Microservices, RESTful Web Services, SOAP
Databases: MySQL, Oracle SQL
DevOps & Tools: Docker, Kubernetes, Jenkins, Maven, Git, GitHub, Postman, Swagger,AWS
Frontend: Angular (Typescript), HTML5, CSS3, Bootstrap
Security: JWT Authentication, Role-Based Access Control (RBAC),Oauth
Other: Kafka, ModelMapper, Lombok
